ACE TEAM GOALS

ACE encourages our energetic and enthusiastic team to:

- Grow in Expertise.
- Grow in Confidence.
- Grow in Job Satisfaction.
- Grow in Number.

Grow in Delighting Our Clients with Superior Service!

UTILITY FOCUS

REMOTE CONTROL & MONITORING

ACE is Hiring Control Systems Engineering Talent!

In our work with some of the most prestigious clients in the utility sector, we are seeing an increasing demand for our most experienced control systems engineers – particularly those with specific experience on past client projects.

This is no surprise. IT/OT convergence can be challenging and there is no substitute for that solid knowledge and practical experience in study, design, development, testing and commissioning.

However, it is equally important that we provide a training ground for our young engineers, to learn from the best, and to get that valuable hands-on experience that our clients need for the future. So, we need both.

We need experienced engineers that we can put to work on exciting projects immediately. We also need to identify the best young talent out there – and rapidly bring these young engineers up to speed. If you know someone wants to make a difference to community, then please give us a

APRIL

Keeping customers is about the experience, and the employees control the culture and temperature of the business. Never forget that.

– Steve Wynn

The only source of knowledge is experience.

– Albert Einstein

To know that we know what we know, and to know that we do not know what we do not know, that is true knowledge.

– Nicolaus Copernicus
