Engineering The Future of Smart Utilites

Hi , planning your project execution or looking out for design options? If you have such a requirement, please give us a call or drop by for a coffee. We would love to understand your challenges, and how we can help. In the meantime, here is what is making news in ACE and SCADA space for May 2022.

Case Studies

ACE is now on PTA SCADA Engineering Panels

With continued focus on smart utility and business expansion, ACE has become a Public Transport Authority SCADA Engineering Panel member. Our ACE teams are very excited and are looking forward to over-deliver on clients' expectations.

Yu Jordan Zhao - recognised by Engineers Australia as a Fellow - 2022 Member Recognition Ceremony.

Congratulations to our MD – Yu Jordan Zhao, upon being recognised by Engineers Australia as a Fellow at the recent 2022 Member recognition event.

Yu has been very appreciative of the support from his family, his team at

ACE, members from **Engineers Australia**, and all his wonderful clients in the utility space.

Importantly, **Yu Jordan Zhao** is ways keen to encourage his engineers, and particularly the younger members of his team, to pursue their accreditations. In doing so, they are advancing their careers, and also the engineering profession, for the benefit of the community.

Yu Jordan Zhao pictured above at the Member Recognition Ceremony with **Dr Ken Michael AC**, a former Governor of Western Australia, and Honorary Fellow of Engineers Australia.

Dr Michael has been an Engineers Australia member for more than 60 Years and is also a former WA Division President.

Welcome to all the new ACE team members...

Ali Kiani - Project Manager - Ali has worked for APA group for the past 9 years. He has solid Operation Technology engineering project management knowledge including ClearSCADA, OsiPI, digital twin. Ali is a firm believer in ACE's vision for smart utilities. We welcome Ali to join this exciting journey at ACE. Ali brings management knowledge and leadership experience and boosts ACE's EPC (Engineering, Procurement and Construction) management capability. Welcome aboard Ali.

Chenga Daw - SCADA Engineer - Chenga is a passionate and competent engineer with experience in industrial automation and electronics design. He has a master's degree in Instrumentation, Control and Automation Engineering from ECU, WA. Chenga has recent experience from the Forrestfield-Airport Link (FAL) Project as a SCADA engineer where he was involved in site SCADA I/O testing and commissioning. He is a team player with strong work ethic and problem solving capability. Welcome aboard Chenga.

In May, we have continued to grow in size, capability and expertise. This growth further facilitates the fast delivery of our client projects and positions ACE to undertake large SCADA projects in the utility industry.

Welcome to the youngest addition to the ACE family...

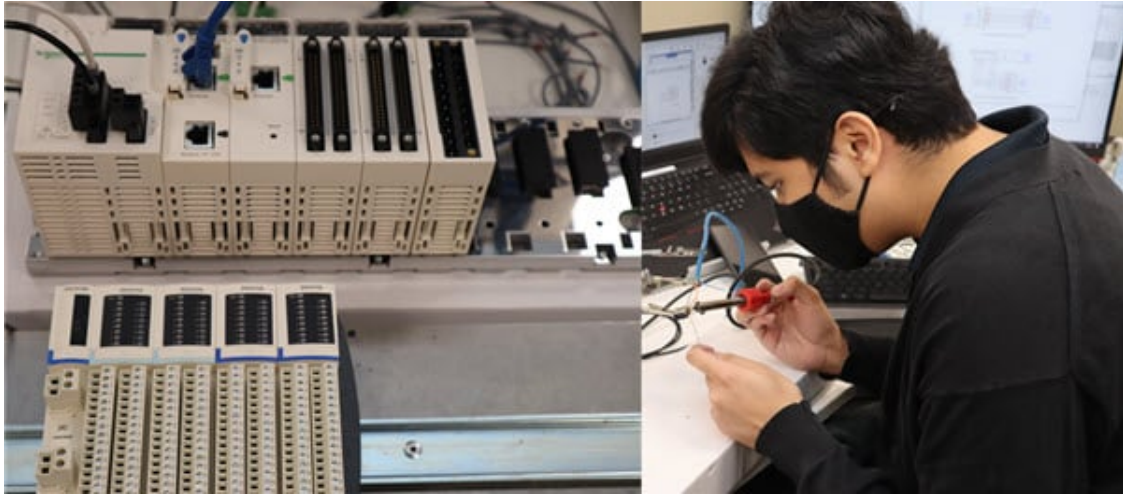

Our Senior SCADA engineer, Matthew Wood and his wife Ayako were excited to welcome little **Minami** into the world!

- Born on 13th May 2022 @9.49am at Glengarry Private Hospital
- Weight 4680 g
- Length 54 cm

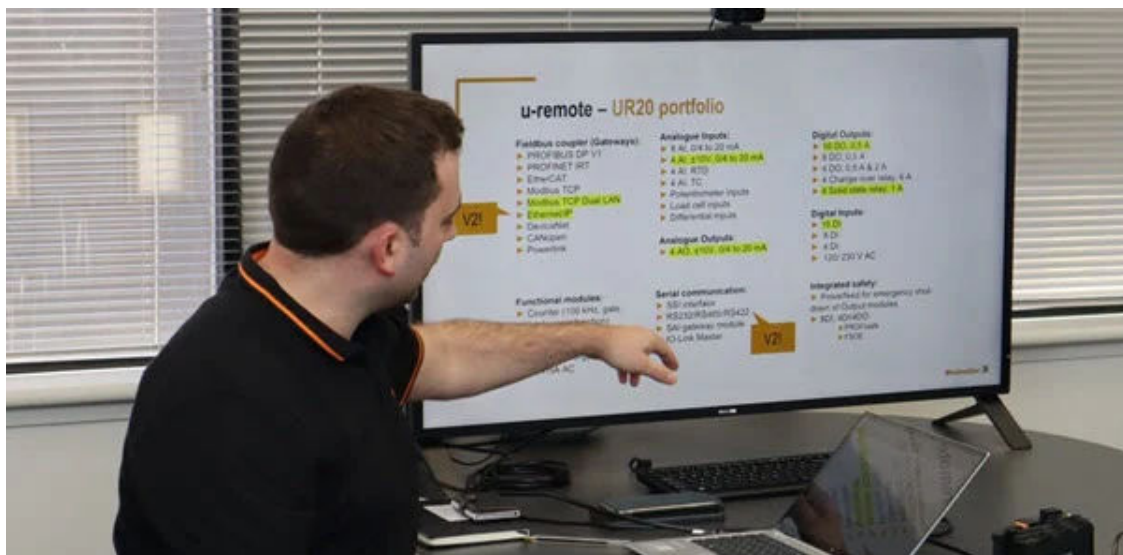

ACE Delivers on Telemetry Engineering Project

This particular client required a well designed and developed radio telemetry & control system to obtain high-quality data from their assets to make informed decision on the operations. As usual, our ACE engineers have been very focused on delivering the project on time and budget. We always strive to help utilities achieve an integrated, interoperable and visible network across the value chain to optimally manage and operate client assets.

Lunch and Learn...

The ACE team appreciated the technical training from **Weidmueller Australia** whilst enjoying a lunch together. We are very grateful for the automation product training by **Mike Laing, Dana Granieri** and **Michael Garnham**. We are working closely with our hardware and software partners to provide suitable engineering solutions to our local clients and communities.

Our Expanded Office Space is Ready!...we lined up the pizzas to celebrate 😊

We have now moved into our new expanded offices at 200 Adelaide Terrace in Perth. And of course, the pizzas (and beers) were lined up to celebrate!

But an ACE celebration is never complete without the team being called upon to get out of their comfort zone - and make a few speeches.
