

Engineering Smart Utilities

G'day ,

I hope you are well. We're excited to share the latest development in our capabilities that are set to bring even more value to our client's projects and collaborations with us.

ACE - "A Market Leader in Renewable Energy SCADA Integration"

ACE spearheads Renewable Energy System Integrations, helping clients move toward their **net-zero** goals through unparalleled SCADA expertise.

We offer tailored solutions that align with our clients' specific needs. Our expertise encompasses the entire scope of SCADA and communication systems, from critical system design to device integration, installation and maintenance. We ensure that each ESS is optimised for efficiency, reliability, and sustainability, enhancing data security and renewable energy utilisation. With ACE's solutions, clients can expect a significant reduction in operational costs as well as environmental impact.

Control Panel Supply and Installation

At ACE, we specialise in designing, supplying and installation of control system panels that are tailored to meet our client's specific needs. Our commitment to quality and precision ensures seamless integration with your existing systems, all delivered on time and at a cost-effective rate.

If you need any assistance, feel free to reach out to us.

ACE Panel Solutions

New Team Members

We're thrilled to welcome our newest associates, Sarah Dunnage and Zach Booth.

Sarah, joining us with 14 years of experience in the electrical industry, is an expert in HV/LV system integration and Arc Flash mitigation. Her extensive hands-on experience and deep knowledge make her an invaluable addition to our team.

Zach, a recent ECU graduate, brings a fresh perspective and a natural 'can-do' attitude. Despite being early in his career, Zach's exceptional drive and notable achievements position him on a fast-track career trajectory under our senior engineer's supervision.

A warm welcome to Sarah and Zach!

ACE Vision

Inclusion and Diversity

Celebrating a decade of innovation, we pride ourselves on fostering a diverse and inclusive workplace. Our culture is built on transparency and collaboration, empowering every team member to share their ideas and contribute to our decision-making processes.

In regard with hardware, our approach is agnostic. We partner with all major technology vendors, including Rockwell, Siemens, Schneider, GE, Honeywell, Yokogawa, Emerson, and ABB. This strategy ensures we can offer our clients a broad range of engineering solutions, delivering optimal results in both cost-efficiency and purpose-fit excellence.

At ACE, we embrace inclusion and diversity in all its forms—**people, technology, and clients.**
