

Engineering Smart Utilities

G'day ,

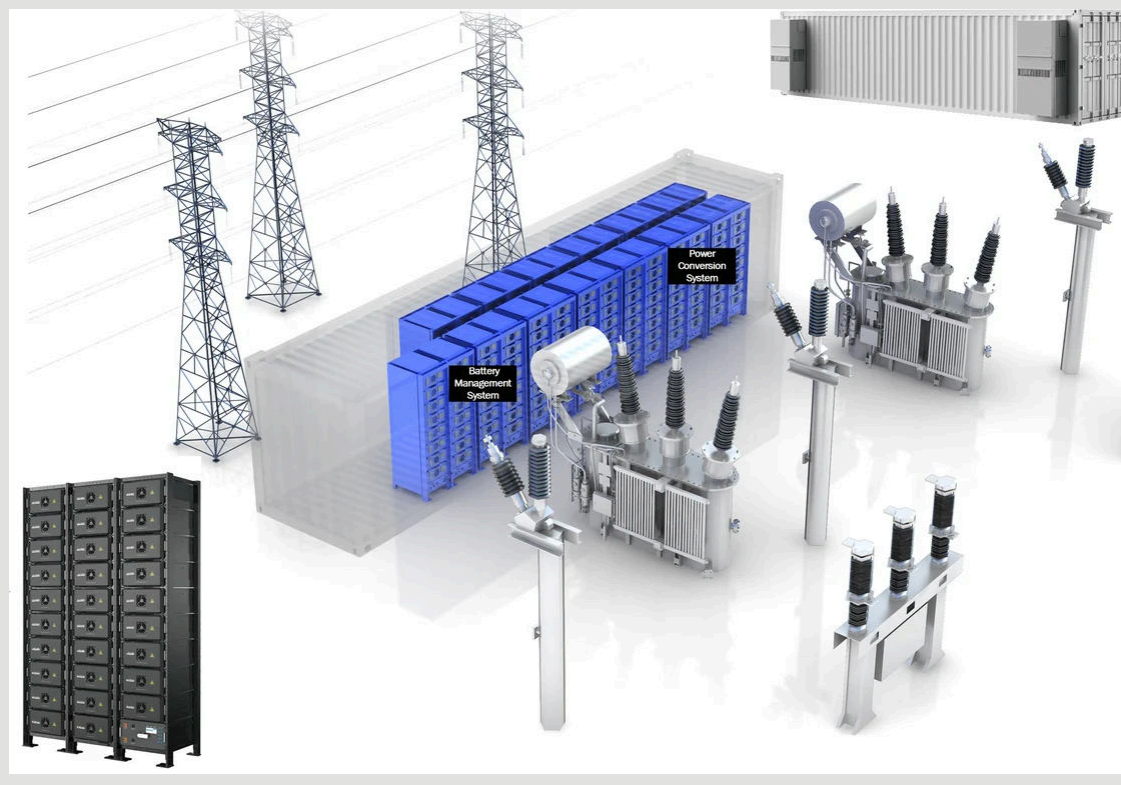

Happy New Year! I hope you had a delightful break and are fully recharged for 2024. We're thrilled to update you on the growth and development of our team and capabilities.

Market Leadership in Smart Utilities

We're trilled to highlight ACE's market leadership in the Smart Utilities sector. Our vision to revolutionise utility operation with advanced field equipment and SCADA. As we continue to help our clients reach their net-zero targets, ACE remains dedicated to maintaining our position at the forefront of Smart Utility expertise.

Energy Storage System Integration

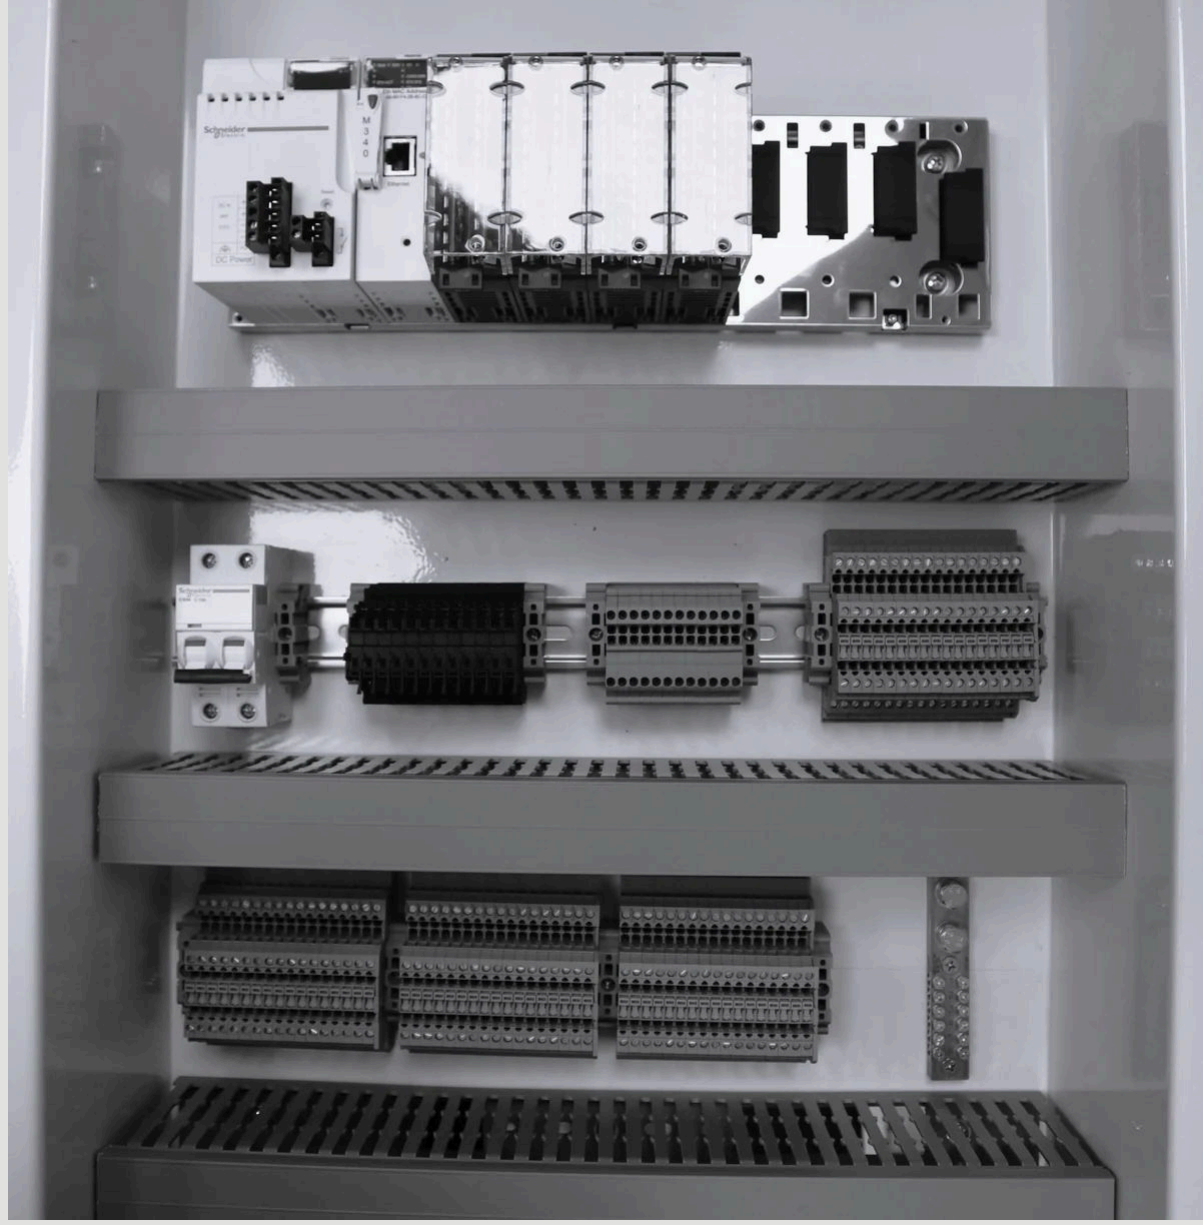

We integrate Energy Storage Systems (ESS), offering tailored solutions that align with our clients' specific needs. Our expertise encompasses the entire scope of SCADA and communication systems, from critical control system design to device integration, installation and maintenance. We ensure that each ESS is optimised for efficiency, reliability, and sustainability, enhancing data security and renewable energy utilisation. With ACE's solutions, clients can expect a significant reduction in operational costs as well as environmental impact.

If you're in need of ESS solutions, give us a buzz.

PLC Panel Design and Supply

We offer customised solutions in PLC panel design, supply and installation, tailoring each system to meet the unique requirements of our clients. With a focus on quality, precision and delivery, we ensure that our PLC panels integrate seamlessly with existing systems, enhancing operational efficiency.

If you need any assistance, feel free to reach out to us.

Keith Ong Business Development Manager

We are delighted to announce the appointment of Keith Ong as our Business Development Manager.

With an impressive 25-year career in the local control system, SCADA, and communication industry, Keith brings a wealth of hands-on experience and expert knowledge of client systems. His expertise and dedication make him invaluable to our team. We are confident that Keith's skills will greatly assist our clients and partners in developing their OT infrastructure, offering exceptional solutions.

Welcome aboard, Keith!

Join the ACE Team!
