

Winner

Mondialogo Engineering Award

Yu Zhao

Curtin University of Technology

received a Mondialogo Engineering Award 2007, organized by Mondialogo, an initiative by Daimler and UNESCO, for the project proposal

Development of Sustainable Power and Water Supply for Remote Areas and Disaster Response and Reconstruction in Indonesia

jointly developed with

Gadjah Mada University, Thi-Qar University/ Marshes Research Centre

This team demonstrated outstanding work in the field of engineering and technology, while displaying laudable commitment to intercultural dialogue, the eradication of poverty and the pursuit of the Millennium Development Goals.

This project proposal is one of ten Award winning proposals, selected from among 92 entries demonstrating the value of intercultural teamwork in the engineering sciences. In recognition of this excellent achievement, a monetary prize of Euro 20,000 was awarded to the team during the Mondialogo Symposium held in Mumbai, India, from 7-10 December 2007, for initiating the practical implementation of the project.

We congratulate

Yu Zhao

on his outstanding performance.
